#### PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-77. A joint resolution adopted by the Legislature of the State of Wyoming relative to tax treatment of Health insurance; to the Committee on Finance.

#### JOINT RESOLUTION NO. 1

Whereas, the high cost of health insurance has created a large number of uninsured citizens in the United States and the State of Wyoming;

Whereas, those without health insurance are less likely to receive adequate health care;

Whereas, insurance purchasing decisions are to a large extent made by employees and not insurance beneficiaries;

Whereas, overreliance on employer-provided health insurance impedes worker mobility;

Whereas, spiraling health care costs are in part caused by a lack of active consumer participation in health care markets;

Whereas, employers can deduct the full cost of employee health insurance as a business expense, while individuals may not: Now, therefore, be it

*Resolved* by the members of the Legislature of the State of Wyoming:

Section 1. That the Wyoming State Legislature petitions the Congress of the United States to equalize the tax treatment of employer-provided and individually purchase health insurance by creating a tax credit for the full amount of insurance purchased by individuals.

Section 2. That the Secretary of State of Wyoming transmit copies of the resolution to the President of the United States, to the President of the Senate and the Speaker of the House of Representatives of the United

States Congress and to the Wyoming Congressional Delegation.

POM-78. A joint resolution adopted by the Legislature of the State of Wyoming relative to the declaration of an emergency in watersheds located in the national forests within Wyoming; to the Committee on Environment and Public Works.

Whereas, the Wyoming State Legislature finds that:

(a) A state of emergency exists in Wyoming due to a shortage, and ever diminishing aggregate total supply, of water available to its citizens, communities, livestock, wildlife and their habitats.

(b) Virtually all Wyoming communities have been seriously threatened and impacted by a shortage of available water within the last calendar year.

(c) Virtually all Wyoming waterways are either presently experiencing, or within the last calendar year have experienced, a significant depletion of available water as well as the streams and tributaries that contribute water to the waterways.

(d) Most Wyoming livestock, wildlife and threatened or endangered species are now or are likely to be seriously imperiled by a shortage of available water either directly or indirectly via the impact of the water shortage on their supply of forage or prey base.

(e) Due to the existence of this declared state of emergency it is imperative that Wyoming promptly take necessary actions to restore and increase the aggregate total supply of water available within the state.

(f) This state's aggregate total supply of water is significantly dependent upon watersheds located on federal lands. To achieve an increase in the aggregate total supply of water in Wyoming it is imperative for the state to take appropriate actions that may be available to remedy the presently existent deteriorated conditions of these watersheds.

(g) The existence of excessive overgrowth on Wyoming's federal forests has been publicly acknowledged and declared both by state officials and in 2002 by the President of the United States, members of his cabinet, other administration officials and numerous members of the United States Congress.

(h) Numerous state and local Wyoming elected officials and other citizens have repeatedly petitioned the United States Forest Service over the last several years to take actions needed to remove or eliminate the excessive forest overgrowth conditions that exist on watersheds on the federal lands within the state of Wyoming. All the petitions have been effectively ignored by the Secretary of Agriculture and other officers within the federal government under her authority, reflecting what can only be characterized as their utter disregard for both the needs of Wyoming citizens and wildlife, and Wyoming's lawful rights to the waterflows.

(j) The United States Congress, in pertinent part, expressly provided that "No national forest shall be established, except to improve and protect the forest within the boundaries, or for the purpose of securing favorable conditions of waterflows . . ." 16 U.S.C. §475. Congress reaffirmed this directive when it passed the Multiple-Use Sustained-Yield Act of 1960 by specifically stating that the national forests "shall be administered" for "watershed" purposes, 16 U.S.C. §528 et seq.

(k) The United States Supreme Court in *United States v. New Mexico*, 438 U.S. 696 (1978) stated "Congress has evidenced its continuing concern with enhancing the water supply for nonforest use by specifically authorizing the President to set aside and protect national forest lands needed as sources of municipal water supplies. 16 U.S.C. §552a."
